PROFILE

I am passionate about Full Stack Development & looking for opportunities to grow. I have worked as a D&L Consultant for 4.5 years in IT. Now I am expanding my horizons and branching out to Web & App Development with a goal to keep on learning and growing. As an experienced Consultant, I love solving problems and securing customers success. I have worked with cross functional teams and conducted quality management. I am extremely detail oriented and very hands-on. Taking ownership is something I would like to do more.

PERSONAL PROJECTS
